WHEELS	
RIMS	Alloy, Double Wall
HUBS	Alloy w/ QR, 32h
SPOKES	Stainless Steel
TIRES	Kenda Multi-Surface, 26x1.95
OTHER	
EXTRAS	Kickstand
WEIGHT	How much does this bike weigh? It's a common question, and rightly so. But the truth is, there are no industry standards for claiming bike weights—and this leads to a lot of misinformation. Variances exist based on size, frame material, finish and hardware. And as bikes get lighter, these differences become more critical. At Giant, we believe the only way to truly know the weight of any particular bike is to find out for yourself at your local retailer.

FRAME DESIGN

Simplify your life with one bike to go anywhere. With a lightweight frame and smooth-rolling but tough 26-inch mountain bike wheels, Sedona W is perfect for bike paths, dirt paths or just a cruise through the neighborhood. With a wide range of gears and a comfy saddle and grips, you'll want to go an extra mile or two.

ALUXX Aluminum Technology

FIVE POINT

- Lightweight aluminum frame
- SR Suntour XCT V2, 70mm travel fork
- Shimano 21-speed drivetrain
- Giant Comfort Groove, Women's saddle

GEOMETRY

Size	Head Angle	Seat Angle	Top Tube	Head Tube	Chain Stay	Wheel Base	Standover Height
